

LooNavig

*Find toilet. Find parking.
Get there.*

WELCOME

Life moves fast, and sometimes, the simplest everyday needs can become the biggest inconveniences. Finding a clean restroom when you need one or locating a parking space in an unfamiliar area can quickly turn a simple journey into a stressful experience. Whether you are a parent travelling with children, a commuter rushing to work, a delivery driver on the road, a person with accessibility needs, or a traveller exploring somewhere new, these everyday challenges are universal.

LooNavig was created to make these moments easier. By bringing toilet and parking discovery together in one simple app, we help people find nearby facilities, know what to expect, and move through their day with greater ease and confidence.

Thank you for being part of the beginning of this journey. Your presence makes this milestone even more special, and we are delighted to share our vision and what we have been building with you.
